

XVII EAAE CONGRESS

AGRI-FOOD SYSTEMS IN A CHANGING WORLD:
CONNECTING SCIENCE AND SOCIETY

AUGUST 29TH - SEPTEMBER 1ST 2023
RENNES, FRANCE

INRAE  

Agri-food systems in a changing world: connecting science and society

The XVII congress of the European Association of Agricultural Economists aims to foster the debate and dialogue over effective policies, innovative strategies, investment priorities and future-oriented educational programs. The theme "Connecting science and society" implies that agricultural economists push the boundaries of science and research for a strong societal impact. The interactions between scientists, policy-makers, agro-industry, farmers at the congress will contribute to the transitions for the agriculture and agri-food systems.
